M3Asia unwraps new PAPAGO H5600 GPS device

M3Asia Sdn Bhd. ("M3Asia"), a wholly owned subsidiary of public listed entity, M3 Technologies (Asia) Berhad, has very recently launched the latest GPS Personal Navigation Device (PND) from Papago! - H5600. The H5600 is the latest PND from Maction Technologies Inc. (Trademark owners of Papago!) boasts exciting features such as Voice Command Navigation, FM Transmitter, AV-in (which supports the reverse camera option) and a 800 x 480 High Definition screen.

Powered by the latest PAPAGO! Navigational Software – the Reality 7 - this sleek and stylish device offers a comprehensive library of Points of Interests (POIs), realistic Junction Views, clear and precise Lane Assists and fascinating 3D Buildings and Monuments in major towns and cities. All this compliments the user friendliness of the device which makes for a vivid view and fun driving experience for all users. It comes preloaded with with 5 S.E.A. country maps - Malaysia, Singapore, Brunei, Indonesia and Thailand.

“Like it's predecessor, the R6600, the new PAPAGO! H5600 possesses the unique Voice Command Activation feature. This provides the user with the option of merely speaking out the destination, and the H5600 will automatically detect and thereafter navigate to the said destination”, says Lester Neil Francis, Group Chief Operations Officer of M3Asia.

“And what's even better, the PAPAGO! H5600 is 30% slimmer than it's previous model, making it the slimmest PAPAGO! Model to date,” he added.

“We are pleased to launch our slimmest PAPAGO! model ever and the H5600 is also our first High Definition Display model,” says Leon Jian, Vice President Maction Technologies Inc. “With the H5600 model, it places PAPAGO! as the leading brand of GPS PNDs and this is important for us in Malaysia

as it is a leading edge market in Asia Pacific when it comes to technology products.”

M3Asia offers regular free map updates, dependable technical support & reliable warranties on all its products.
