

M3 TECHNOLOGIES (ASIA) BERHAD'S PRODUCT SHOWCASE

M3 Technologies (Asia) Berhad recently showcased its latest product offerings on 27 April 2016 at Renaissance Hotel Kuala Lumpur, products included the GetSnapps mobile app building platform, the i3TeamWorks business management solution and the i3Display interactive digital panel.

i3Display

is a hardware and software solution which has been launched for close to two years and is continuing to gain ground in the marketplace.

GetSnapps

is a mobile application ("app") building platform, which allows anyone to build an Apple iOS or Google Android compatible app without the need for any programming knowledge whatsoever. Once complete, apps may be published directly onto Apple's iTunes Store, or Google's equivalent offering.

i3TeamWorks

is best described as a "Business Management Solution". The range of capabilities within i3TeamWorks is highly extensive, and is one of the main reasons behind M3 Tech's holding of a Product Showcase.
